

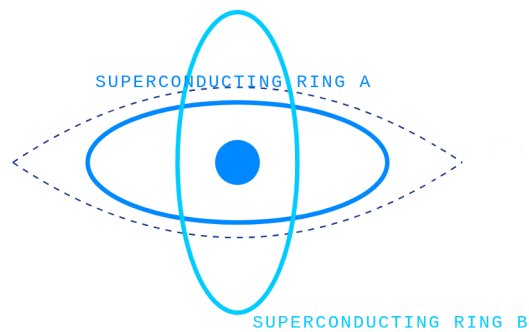

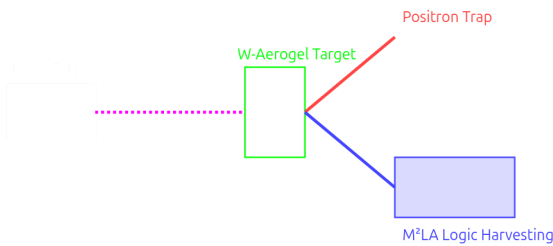

FIG. 1: ORRT POWER CORE

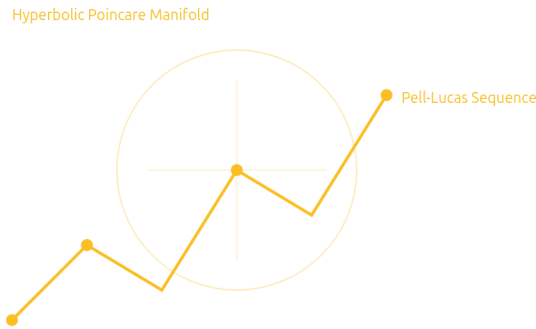

Lorentz-Gradient Ratchet (LGR) mechanism harvesting magnetospheric shear gradients.

FIG. 2: ACN & SYMBIOTIC LOGIC

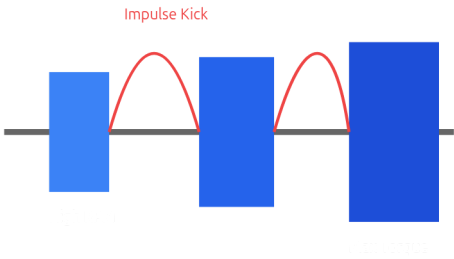

Pair production byproduct (0.99c electrons) utilized for zero-marginal-cost computation.

FIG. 3: HST INTELLIGENCE LAYER

Recursive temporal encoding providing $O(n \log n)$ attention complexity for infinite context.

FIG. 4: CASCADE MOTOR ASSEMBLY

Inter-stage capacitor impulses multiplier mechanism for non-mechanical torque conversion.
