

ADDENDUM 03 TO TERMS AND CONDITIONS

Effective Date: [Signed] Platform Reference: Aethyr Global (<https://aethyr-global.com/>)

This Addendum 03 ("Addendum") is made to supplement and amend the existing Terms and Conditions ("Terms") between the Licensor and the Licensee. This Addendum establishes the requirements for license activation and incorporates newly established data rights protocols.

By executing this Addendum, both parties agree to be bound by the following supplementary terms:

1. EXPEDITED LICENSE ACTIVATION AND LEGITIMACY

To ensure a faster, more secure, and publicly verifiable licensing process, the activation requirements for all standard licenses, specifically including the "Giga License" and the "Small License", are hereby updated as follows:

1.1. Conditions for Legality and Binding Effect: Any Giga License or Small License shall be deemed fully legitimate, active, and legally binding upon both parties only at the exact time the following two consecutive conditions have been met:

1. Mutual Execution: Both the Licensor and the Licensee have formally signed the respective license agreement.

2. Platform Upload: The Licensee has successfully uploaded the associated files and the record of the signed license to the official Aethyr Global public repository located at <https://aethyr-global.com/>.

1.2. Verification: The timestamp of the successful upload to <https://aethyr-global.com/> shall serve as the official effective start date and time of the license. Until the upload is complete, the license remains inactive, and no rights are granted to the Licensee.

2. DATA RIGHTS DECLARATION (MARCH 26, 2026)

2.1. Incorporation by Reference: This Addendum officially incorporates the Data Rights Declaration made on 26 March 2026 into the governing Terms and Conditions.

2.2. Condition of Data Usage: Pursuant to the aforementioned Data Rights Declaration, the Licensee is granted the right to access, process, and utilize the provided data strictly on the condition that a valid license (whether a Giga License, Small License, or otherwise) has been:

1. Signed by both the Licensor and the Licensee; AND

2. Successfully uploaded and registered at <https://aethyr-global.com/>.

2.3. Unauthorized Usage: Any usage, extraction, or commercialization of the data prior to the fulfillment of both conditions outlined in Section 2.2 constitutes a direct breach of the Data Rights Declaration of 26 March 2026 and these Terms, resulting in immediate revocation of access and potential legal liability.

3. EFFECT ON PREVIOUS TERMS

Except as expressly modified by this Addendum 03, all other provisions, terms, and conditions of the original Terms and Conditions shall remain in full force and effect. In the event of any conflict between the original Terms and this Addendum regarding license activation or the Data Rights Declaration, the provisions of this Addendum shall prevail but only limited to and isolated to the way of activation of license and the way of permitting the data of commercial use, thus this do not void all other focus points of original DATA RIGHTS DECLARATION, or any other focus points of all other documents.
