

ADDENDUM 04 TO TERMS AND CONDITIONS

Alternative Payment Provision (Intelligence Exchange)

Effective Date: [Signed] **Platform Reference:** Aethyr Global (<https://aethyr-global.com/>)

This Addendum 04 ("Addendum") is executed unilaterally by the Licensor to supplement and amend the existing Terms and Conditions, including provisions set forth in prior Addenda. The purpose of this Addendum is to provide the Licensee with an alternative method of fulfilling payment obligations under any applicable license agreement.

By executing this Addendum, the Licensor hereby grants the Licensee the following rights and options:

1. UNILATERAL GRANT OF PAYMENT OPTION

1.1. Sole Signatory: This Addendum is executed solely by the Licensor as a binding offer and authorized option made available to the Licensee. The Licensee's acceptance of this option shall be demonstrated through the delivery of the alternative payment instrument described herein, and does not require the Licensee's physical signature on this specific Addendum.

2. PAYMENT IN INTELLIGENCE

2.1. Intelligence as Consideration: The Licensor hereby authorizes the Licensee to fulfill their financial obligations (in whole or in part, subject to the Licensor's final assessment) by providing an instrument of payment formulated in "**intelligence**".

2.2. Definition of Intelligence: For the purposes of this Addendum, "intelligence" may include, but is not limited to, actionable data, strategic information, proprietary knowledge, or specific informational instruments delivered to the Licensor.

2.3. Strict Condition of Convertibility (One-Month Timespan): The option to pay via intelligence is strictly contingent upon the Licensor's ability to successfully and practically convert the provided intelligence into tangible **local assets**. This conversion into local assets must be reasonably executable by the Licensor within a timespan of **one (1) calendar month** (30 days) from the date the intelligence is transferred.

2.4. Licensor's Discretion: If the Licensor determines that the provided intelligence cannot be converted into local assets within the stipulated one-month timespan, or if the value of the resulting local assets does not adequately satisfy the licensing fee, the Licensor reserves the right to reject the intelligence as payment, at which point standard payment terms shall apply.

3. EFFECT ON PREVIOUS TERMS

Except as expressly modified by this Addendum 04 granting this alternative payment option, all other provisions, terms, and conditions of the original Terms and Conditions and prior Addenda remain in full force and effect.

IN WITNESS WHEREOF, the Licensor has executed this Addendum 04 as a unilateral authorization as of the date written below.
